# TO THE CITIZENS OF JASPER COUNTY

I am pleased to present to you, the 2010 annual report for the Jasper County Health Department. The report is a summary of the services provided to Jasper County residents.

The health department plays a primary role in disease prevention and health promotion. Quality of life is enhanced, as health department staff provide an array of services. Those services include communicable disease prevention, food and water safety, immunizations, health screenings and behavioral health counseling and intervention.

The department continues to provide school nursing services. Also provided are occupational health services to various local companies and industries.

The department also continues to face state funding cuts and payment delays. We have had to streamline and become more efficient; in order to continue to provide services to the people we serve.

We welcome your review of the 2010 annual report. I would like to sincerely thank the Board of Health, the Jasper County Board, all elected and appointed officials and especially our staff and volunteers. Lastly, I would like to thank all of the other community organizations, governmental agencies and citizens of Jasper County for your support and guidance.

Joel Clark, B.A., L.E.H.P
