

JASPER COUNTY HEALTH DEPARTMENT'S

47TH ANNUAL REPORT

DECEMBER 1, 2021 THROUGH
NOVEMBER 30, 2022

TELEPHONE: PUBLIC HEALTH (618) 783-4436
ENVIRONMENTAL HEALTH (618) 783-5206
BEHAVIORAL HEALTH (618) 783-4154

YEAR ESTABLISHED 1975

TO THE CITIZENS OF JASPER COUNTY

I am pleased to present the Jasper County Health Department 2022 Report to the Community. This is our 47th report since the establishment of the Health Department in 1975. This report provides an overview of the Department's programs and services that protect and promote the health of our residents and visitors. It also highlights the important public health issues and trends, which help to guide the work of the Department to make our community healthier. A summary of the services we provide to Jasper County residents is in this report or on our website.

In 2022, the Jasper County Health Department continued seeking ways to collaborate with community partners to provide quality services and programs aimed at keeping residents and visitors safe and healthy. We also continue to move toward accepting all health insurances, along with Medicare and Medicaid in our nursing and behavioral health divisions.

Although many of our efforts can be seen in how we connect with residents and facilitate change through community partnerships, more often than not the work that we do to prevent disease and promote healthy lifestyles is done behind the scenes. There is an old saying in public health: We are the greatest story NEVER told. Because of this and our role as a publicly funded government entity it is our responsibility to the taxpayers and community at large to share our work. This report to the community is intended to do just that. Please continue to read and explore the many facets of public health and our local programming outlined in this annual report. For more information about our programs, please visit our website at www.jasperhealth.org and follow us on Facebook.

Finally, I would like to extend our sincere appreciation to our Medical Director, Dr. Ryan Jennings, Jasper County Board of Health, the Jasper County Board, all elected and appointed officials, and especially the staff of the Jasper County Health Department. Their commitment and dedication to improving the community's health is second to none.

We look forward to 2023 being a year of improving the health and quality of life for residents throughout Jasper County.

Sincerely,

Deborah Riddle, RN, BSN
Public Health Administrator

MISSION STATEMENT

The mission of the Jasper County Health Department is to improve and enhance the health of all the residents of Jasper County. The department will promote activities that will lead to a more productive and satisfactory lifestyle, which in turn will produce a positive mental and physical condition. Assessment and screening, education, immunizations, prevention services, environmental services, case management, crisis intervention, counseling, and linkage with community resources, are but a few of the activities provided to facilitate the accomplishment of positive outcomes.
